

HOWTO: Adobe Spark for Edu Login

Adobe Spark is a fantastic multimedia creation resource for the classroom. With Adobe Spark for Education, teachers and students still have the features and functionality they know, but with the added benefit of some extra safeguards and better workflows that make it easier to bring this powerful tool into the classroom. The key takeaway of this article is in regards to the login process for this resource; like many of our other apps and services, we are utilizing Single-Sign-On (SSO) using G Suite for Education, but the process is a little different than some other platforms.

How to Login to Adobe Spark for Education

1. Navigate to <https://spark.adobe.com/>
2. Click **Log In**
3. Teachers and students will click **Log In with school account**
4. Type in your FTCS email address (ftcsc.org/ftstudent.org)
5. You will be re-directed to the proper login page

If you have not previously logged into a Google service, you will be redirected to a Google sign in page, and will need to type in your FTCS email address and password again.
